

ONE MOBILE APP

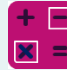

Conduct various transactions online and use mobile service where information is within your reach anytime, anywhere.

The ONE Mobile App was introduced with the goal of empowering our customers with an easy-to-use mobile service where information they need is easily accessible and actionable.

ONE Mobile App offers a range of valuable features - you can search routes via *Schedule Enquiry*, get quotations quickly with *ONE QUOTE*, receive *Push Notifications* of your shipments, stay up-to-date with *News Alerts* or ask Questions via *Live Chat*, etc. In addition, new features such as *Shipment Overview*, allows you to easily track and monitor your shipment status while the *ONE Eco Calculator* assists in measuring the carbon footprint of each shipment - enabling you to make more sustainable choices.
